

int_var

1

The diagram illustrates a memory stack. On the left, a vertical column of light blue rectangular cells is outlined in dark blue. The fourth cell from the top contains the number '1'. To the right of this stack, an orange rectangular box with a dark red border contains the text 'int_var'. A black curved arrow originates from the left side of the 'int_var' box and points to the right side of the cell containing '1', indicating that the variable 'int_var' holds the memory address of this specific cell.
